

In the sales field, customer proximity factor-product is critical. But it is also true that this proximity increases the risk of theft!

The SUMMUM SECURITY's theft inspectors apply in civilian clothes, so commonplace, in your retail space, reduce the risk of theft.

Remember, these thefts have the greatest impact because they directly attack your profit margin, especially if this one is close!

To preserve the health of your business, work will be trying to keep the atmosphere conducive to the sale of each site. The main points of the retail will be:

- The observation, vigilance
- Detection
- Flagrante crime

*For smooth operations, procedures will be established with the client (local at our disposal, call the police or not,...).*
